

Dear Mr. Mike West,

Family and Children's Aid would like to thank you for your support of the Week of Caring. Philanthropic Business's are the cornerstone of the Week of Caring. The partnership of Family and Children's Aid, General Electric and local Business's, create a volunteer event like no other.

Family and Children's aid provides both residential and outpatient services for abused and neglected children. We strive everyday to correct the wrongs that have unjustly been forced on these children. Community backing allows us to maximize the care we can provide. For one week each September an army of GE volunteers sets out across the Family and Children's Aid campus with one mission, to improve the lives of young people whom have endured traumatic experiences. This years projects included painting, landscaping, building a handicap ramp, a mural, and a theatre room.

A beautiful living environment creates the positive atmosphere for healing we endeavor to provide. We are proud to report that the entire project plan was completed; your contribution played a significant role in our ability to meet our goals.

Support from Business's like yours allows us to accomplish this very aggressive project plan. Your expertise was a great compliment to the army of volunteers we had during the Week of Caring. Your donation of time and material allow for us to make an event like the week of caring the success it is.

Family and Children's Aid is very grateful for your support of these wonderful kid's. Our mission "For every child a home" is a reality because of your high minded efforts.

*Sincerely*

Irvin R. Jennings, M.D.  
Executive and Medical Director  
Family and Children's Aid
